

ROCVENT INFLATABLE HEAD COVER

Set-up of the airbag head cover

X-Sectional View

Configuration of the air bag head cover

A radical approach to increased safety underground. Rocvent have designed an inflatable head cover to meet conditions, which previously exposed workers to falling objects such as rock etc.

The multicell system enables protection where there was no previous means of security from falling objects. We design to custom orders and welcome your inquiry.

- Features:
- Light weight
 - Small physical size
 - Ease of installation
 - Shorter down-time
